DICE TOWER – TAVERN

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Can be scaled to 99% if you are finding it too tight to fit into frame. If you do, be sure to also scale the Dice Tray.

DICE TRAY – TAVERN

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

N/A

ACCESSORY – LED HOLDER

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Brim

Notes:

Assembly guide located in StageTop Complete/Instructions. Print in white or translucent PLA as the inside wall acts as a diffuser.

ACCESSORY – LED HOLDER – CORNER

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Brim

Notes:

Assembly guide located in StageTop Complete/Instructions. Print in white or translucent PLA as the inside wall acts as a diffuser.

COMPONENT CUP

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

N/A

COMPONENT CUP – HALF

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

N/A

COMPONENT CUP – BARREL

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

N/A

COUNTER WHEEL

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

For use with the PlayTile – Counter Wheel Holder.
Numbers up to 20. To get easier to read numbers, at layer 15 change filament to a dark color (ie. black), then change back at layer 27.

FRAME

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

None

Notes:

This piece takes all the build plate, on printers with a 210x210 Build Plate be sure Bed Adhesion is set to None as any # of skirt lines may extend outside build area.

FRAME LOCK

Layer Height:

.24

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Test print prior to printing multiple pieces and check for frame fit. If too loose scale to 99.5% or 99%. If too tight print at .20-layer height.

TILE LOCK

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Print in orientation provided to ensure strength of part.

LEG – ADJUSTABLE – BOTTOM

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Requires Leg – Adjustable - Top.
This leg is ideal for uneven surfaces.

LEG – ADJUSTABLE – TOP

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Requires Leg – Adjustable – Bottom. This leg is ideal for uneven surfaces.

LOCKNUT – ADJUSTABLE LEG

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Place on the Adjustable Leg Bottom before inserting into the Top. This locks the adjustable leg into position.

LEG – BROADWAY

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if your table needs a heavier base.

FOOT – BROADWAY

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG – ELITE

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if your table needs a heavier base.

LEG – ELITE – SHORT

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

N/A

FOOT – ELITE

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

N/A

FOOT – STANDARD

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG – LITE

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if your table needs a heavier base.

FOOT – LITE

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG – SCIFI

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if you need a heavier base.

FOOT – SCIFI

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG – STRONGHOLD

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if your table needs a heavier base.

FOOT – STRONGHOLD

Layer Height:

.20

Infill:

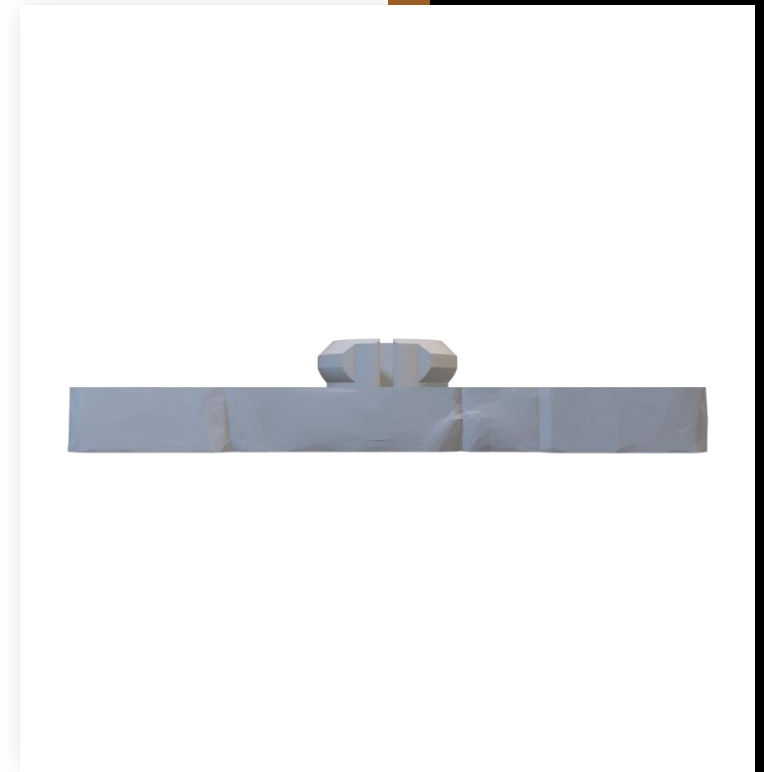

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG – TAVERN

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Use 15% to 20% infill if your table needs a heavier base.

FOOT – TAVERN

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

TPU Recommended

LEG LOCK – REGULAR

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Alternative to using a Frame Lock. Works great on outside perimeter, connecting frame and rail.

LEG LOCK – MEDIUM

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Alternative to using a Frame Lock. Works great on outside perimeter, connecting frame and rail.

LEG LOCK – SMALL

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Alternative to using a Frame Lock. Works great on outside perimeter, connecting frame and rail.

LEG – STACKABLE

Layer Height:

.28

Infill:

20%

Build Plate Adhesion:

Brim

Notes:

Using a brim is critical as there is very little surface contact on the bottom. These legs are mostly hollow so using a higher infill helps add weight.

STRUT – SINGLE

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Allows a single brace connection.

STRUT – DOUBLE

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Allows a brace to connect on either side in the event extended bracing is needed.

BRACE – LONG

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

For use with Strut - Single and Strut - Double.

BRACE – SHORT

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

For use with Strut - Double Only.

BASE – SMALL

Layer Height:

.28

Infill:

20%

Build Plate Adhesion:

Skirt

Notes:

Use on Stackable Legs to add stability and weight.

BASE – MEDIUM

Layer Height:

.28

Infill:

50%

Build Plate Adhesion:

Skirt

Notes:

Fits all 210x210 build plates. This takes A LOT of filament. Only necessary on bigger tables.

BASE – LARGE

Layer Height:

.28

Infill:

50%

Build Plate Adhesion:

Skirt

Notes:

May not fit all 210x210 build plates. This takes A LOT of filament. Only necessary on bigger tables.

PLAYTILE – CARD TRAY – DOUBLE

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Fits card/sleeve sizes up to
72 x 92mm.

PLAYTILE – CARD TRAY – SINGLE

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Fits card/sleeve sizes up to 72 x 92mm.

PLAYTILE – COMPONENT

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Fits a single frame (taking up 1/2).

PLAYTILE – COMPONENT – CORNER

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Fits a single frame (taking up $\frac{3}{4}$)

PLAYTILE – COMPONENT B

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Fits across two frames (taking up 1/4 on each).

PLAYTILE – COUNTER WHEEL HOLDER

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Counter Wheel. Great for heads up MTG (Not Commander).

PLAYTILE – DICE TRAY

Layer Height:

.20

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

N/A

PLAYTILE – MIXED CARD

Layer Height:

.20

Infill:

Skirt

Notes:

For use with Elite Rails. Made to snap on. To remove you must disassemble rail.

JOINT - RAIL LOCK

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Use with Rails Locks to connect 4 frames adding sturdiness to your table or use with Rail Locks as short table legs to support your table.

RAIL – LITE

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Unlike normal rails, these attach to frame using a Rail Lock placed in the #2 hole on the frame.

RAIL – LITE – ANTI CORNER

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Creates a -90 degree angle for unique table shapes. Unlike normal rails, these attach to frame using a Rail Lock placed in the #2 hole on the frame.

RAIL – LITE – CORNER

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Brim

Notes:

Unlike normal rails, these attach to frame using a Rail Lock placed in the #2 hole on the frame.

Rail Lock

Layer Height:

.28

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Can also act as short legs

CLIP – STANDARD

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Made to snap on. To remove you must disassemble rail.

RAIL – STANDARD – ANTI CORNER

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Creates a -90 degree angle for unique table shapes.

RAIL – STANDARD - CARD V2

RAIL – TAVERN – CORNER

Layer Height:

.20

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Caution: Some component PlayTiles may not fit in corner of your table due to the barrel corner design of this rail.

LEG CARRIER

Layer Height:

.24

Infill:

10%

Build Plate Adhesion:

Skirt

Notes:

Holds 12 Legs.

STORAGE – FRAME HOLDER

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Frame Holder Handle. Can hold 12 Frames. Stack Frame Locks on each individual stem.

STORAGE – FRAME HOLDER – HANDLE

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Frame Holder. Use 4 Frame Locks to attach Handle to Holder.

STORAGE – PLAYTILE HOLDER

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Holds a mixture of PlayTiles. Place 4 Corner PlayTiles in first. Storage area for Tile Locks.

STORAGE – STANDARD CORNER RAIL CARRIER – HANDLE V2

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Standard Corner Rail Carrier Handle.

STORAGE – STANDARD CORNER RAIL CARRIER V2

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Standard Corner Rail Carrier Handle.
Holds 4 Standard Corner Rails.

STORAGE – STANDARD RAIL HOLDER – PART A

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Standard Rail Holder – Part B.
When assembled holds 10 Standard Rails &
Standard Rail Clips.

STORAGE – STANDARD RAIL HOLDER – PART B

Layer Height:

.28

Infill:

15%

Build Plate Adhesion:

Skirt

Notes:

Requires Standard Rail Holder – Part A. When assembled holds 10 Standard Rails & Standard Rail Clips.
